EMPLOYMENT

Danihel Group

Alberta, Canada

Full Stack Developer

Dec 2023 – Aug 2026

- Migrated the mobile app's API integration to a NestJS backend, modernizing client-server communication for a platform processing ~43,000 active orders.
- Cut load times on high-traffic endpoints for ~1,700 users by introducing database indexing and rewriting inefficient ORM queries.
- Standardized permission headers, centralized auth error handling, and audited token anomalies, strengthening platform security across ~5 million logged scan records.
- Migrated legacy data tables to strongly-typed components with server-side sort/pagination, optimizing table performance for ~1,700 active users.

Cynopsis Solutions

Singapore

Full-stack Developer

Sep 2020 – Mar 2022

- Designed a multi-tenant database structure and scalable, reactive RESTful APIs in Django for a rebuilt eKYC platform, applying design patterns to improve system architecture.
- Maintained and optimized an existing eKYC platform on ExpressJS, ensuring performance and scalability for 45 clients.
- Designed and managed an automated AWS CodePipeline deployment process — automatic build, compile, and release — cutting deployment time by 50%.
- Improved Angular state management and UI/UX, driving a 10% increase in user engagement.

Oursky Limited

Hong Kong

Full-stack Developer

Jan 2020 – Aug 2020

- Built React and Bootstrap website templates for desktop and mobile, integrating API data.
- Managed release and deployment to AWS using Docker and Kubernetes, accelerating scalability and infrastructure flexibility.
- Conducted thorough code reviews and pull-request feedback for the team, improving code quality and cutting bug occurrence by 20%.

Construct Digital

Singapore

Full-stack Web Developer

Aug 2016 – Jan 2020

- Developed reusable Vue components, reducing development time by 30% and improving long-term maintainability.
- Implemented caching techniques and optimized assets using Webpack, achieving 3-second load times and 85+ Google PageSpeed scores.
- Conducted thorough code reviews and pull-request management, resolving conflicts and deploying updates to production servers.

SKILLS

- Frontend: HTML, CSS/Sass, JavaScript, TypeScript, React
- Backend: NodeJS, ExpressJS, NestJS, Python, Django, RESTful API design
- Relational database: MySQL, Postgres
- DevOps CI/CD tools: Git, Docker, AWS, aws-cdk

EDUCATION

Ho Chi Minh City University of Technology

Bachelor of Engineering in Computer Science

Awarded in 2017
